

## BONUS HEARING OPENS TUESDAY

American Legion and Other Organizations to Go Before Committee.

## MANY PLANS OFFERED

Land Settlements and Aid To Buy Homes Made Optional.

New taxes of 1 cent on each 100 matches and 25 cents on each \$100 of sales were proposed in the House yesterday by Representative Ackerman, of New Jersey, as a means of providing revenue to aid service men.

The movement towards enactment of legislation for the benefit of former service men will be put actively under way Tuesday, when the Ways and Means Committee begins hearings preparatory to framing a bill to be recommended to the House.

Notices of the hearings were sent out yesterday to the several soldiers' organizations and to members of the House who have introduced bonus and other measures relating to the men and women who saw duty with the American forces in the world war. The heads of the soldiers' organizations are expected to be heard first, to be followed by Representatives who desire to urge consideration of their bills. Franklin D. Oiler, commander, and Thomas W. Miller, chairman of the legislative committee, will appear on behalf of the American Legion; Marvin Gates Speery will represent the Private Soldiers and Sailors' Legion, and Edward Hale will speak for the Veterans of Foreign Wars. These three organizations have one on record as endorsing different plans of rewarding the soldiers, and it will be the purpose of the committee to see if they cannot be brought to an agreement.

**Flat Cash Bonus Indorsed.**  
The American Legion has indorsed a flat cash bonus at the rate of \$50 for each month of service, but recommends that the executive committee should be given an option of which one of these four features he desires:

1. Land settlement covering all States.
2. Home aid to encourage purchase of either rural or city homes.
3. Vocational education.
4. Adjustment of compensation or extra pay for services based on length of service.

The Private Soldiers and Sailors' Legion favors a flat bonus of \$500 and the Veterans of Foreign Wars is supporting the Johnson bill providing for a bonus of \$50 for each month of service with an additional \$100 for each man who went over the top. The American Legion also urges increased compensation for wounded men.

It is said that sentiment is growing among members of the Ways and Means Committee in favor of a cash bonus of \$1 a day for each day of service, with alternative features such as recommended by the American Legion. It is also said to be the sentiment of a number of the committeemen that a general sales tax should be levied to provide the revenue necessary to carry out the bonus scheme.

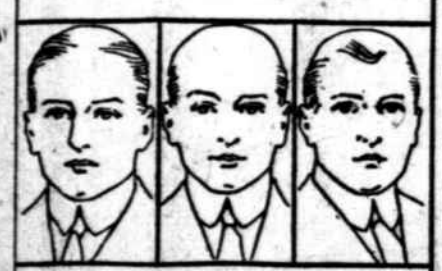

## SENATE TO START NEWBERRY RECOUNT

Recount of the 400,000 ballots cast in the Michigan Senatorial election in November, 1918, will be started by the Senate Privileges and Elections Committee next week, it was announced yesterday. Senator Watson, Indiana, Republican, chairman of the subcommittee in charge, declared that "scrupulous" fairness will be observed by the committee in its work, and has served notice on Democratic members of the subcommittee that they must attend all meetings and approve every action.

## House Votes \$3,400,000 To Complete Hospital

By a vote of 196 to 21 the House yesterday agreed to allow appropriations of \$3,400,000 for the completion of the Speedway Hospital, Chicago. House conferees on the deficiency bill previously had refused to yield to the demand of the Senate that the amount be increased to \$3,500,000. The House several weeks ago fixed the appropriation at \$3,000,000.

## Young Men Don't Get Bald Cuticura Does Much To Prevent It

Dandruff, itching, scalp irritation, etc., point to an unhealthy condition of the scalp, which leads to thin, falling hair and premature baldness. Frequent shampooing with Cuticura Soap and hot water do much to prevent such a condition, especially if preceded by a gentle anointing with Cuticura ointment to spots of dandruff and itching.

Small Book Free by Mail. Address: Cuticura Soap Co., Dept. 100, Portland, Me. 04106. Cuticura Soap shows without fail.

## RETURN BRINGS MANY CHANGES

Most Executives Plan to Go Back to Old Positions With Railroads.

When the railroads are turned back to private control and operation at midnight tonight, many scores of employees and executives of the Railroad Administration will have concluded their work and automatically will go into private life.

Many of the executives, who offered their services to the government when it was found necessary to co-ordinate lines of the country, will go back to positions they occupied before the government assumed control. Some, however, will go back in advanced positions, or accept higher berths on other railroads. Others will abandon railroading for other business enterprises.

**Accepts Berths With Roads.**  
Executives who have accepted berths on railroads under private management, include:

Edward Chambers, Director of Division of Traffic, to become vice president in charge of traffic of the Atchafalaya, Topoka and Santa Fe. William T. Tyler, Director Division of Operations, to become vice president in charge of operations of the Northern Pacific.

T. C. Powell, Director Division of Capital Expenditure, to become vice president in charge of traffic of the Erie. H. A. Taylor, General Assistant to the Director General, to be general solicitor of the Erie.

Garret E. Fort, Assistant Director Division of Traffic in charge of passenger service, to become vice president in charge of traffic of the Boston and Maine.

Robert C. Wright, Assistant Director Division of Traffic, to become traffic manager of the Pennsylvania Railroad.

W. S. Carter, Director Division of Labor, to become president of the Brotherhood of Locomotive Firemen and Enginemen.

**Regional Directors Affected.**  
Regional directors, whose organizations also are disbanded, include some of the best known men in the railroad business. They will return to individual roads.

L. W. Baldwin, regional director of the Allegheny region, which includes the District of Columbia, with headquarters at Philadelphia, will become vice president of the Illinois Central.

A. T. Hardin, director of the Eastern region, New York, will become vice president of the New York Central lines.

N. D. Maher, director of the Potomac region, Roanoke, Va., will become president of the Norfolk and Western.

E. L. Winchell, director of the Southern region, Atlanta, Ga., will go to Chicago to engage in business.

H. H. Ashton, director of the Northwestern region, Chicago, who also is president of the American Railroad Association, it is understood, will continue in that capacity.

R. H. Holden, director of the Central Western region, Chicago, will become president of the Chicago, Burlington and Quincy.

E. F. Bush, director Southwestern region, St. Louis, will become president of the Missouri Pacific.

**Return to Old Jobs.**  
Most of the assistant directors will go back to jobs they held when the war broke out.

A number of executives and employees of the Railroad Administration will remain in their present positions until all details of the transfer to private owners is completed. The divisions of finance, liquidation of claims and accounting will not be disbanded but will continue under the director general.

These divisions will be moved to-day into new quarters of the administration in the Hurley-Wright Building, southwest corner of Eighteenth street and Pennsylvania avenue.

Executives, who will remain temporarily with the administration, include Walker D. Hines, Director General; Brice Claggett, his assistant; G. H. Parker, comptroller; E. M. Underwood, general counsel; Swagart Sherley, director of the division of finance; Henry B. Spencer, director of the division of purchase, and Max Thelen, director of the division of liquidation and claims.

**Spencer to Retire Soon.**  
Spencer, who formerly was vice president of the Southern Railway, is expected to stay only a short time. He expects to enter into business life.

G. A. Tomlinson, director of the division of Inland Waterways, who also has interests in shipping, grain and shipbuilding on the Great Lakes, will give his attention to his business. The Inland Waterways Division is transferred to the War Department under the provisions of the railroad bill.

Director General Hines, while ceasing to function as head of the railroads, will continue for sixty days as head of the four continued divisions to straighten up affairs growing out of Federal control. He also will continue to direct the distribution of coal. An executive order to this effect was issued by the President.

## WINCHESTER FIGHTS POWER RATE REVISION

Winchester, Va., Feb. 28.—The Northern Virginia Power Company, through its president, Emory L. Coblenz, of Frederick, Md., has given notice here that it has filed with the Virginia State Corporation Commission at Richmond a revised schedule of rates and charges for electric lighting and power, which will be in effect on and after April 1 next, unless otherwise ordered by the commission. Approximately 25 per cent increase is sought by the company. If granted, the new rates will obtain in all sections of Virginia served by the company. The concern operates extensively in the city of Winchester and in the counties of Frederick, Clarke and Warren, and has under consideration the extension of its lines into Shenandoah County.

A resolution is now pending in the Winchester Common Council to formally protest against the increase. The Northern Virginia Power Company was organized by local capitalists, and last summer was sold out to Maryland interests, which control the Hagerstown and Frederick Electric Railway Company, the Potomac Light and Power Company and other related concerns in Maryland and West Virginia. The old company applied for increased rates about a year ago, and was denied by the State Corporation Commission.

## Marion Makeover's Thrift Column

—This column will be devoted to answering as satisfactorily as is humanly possible, the question that many women are asking—"How can I best remodel some of the garments I have on hand, and thus help keep down expenses."

—This does not mean, however, that Marion Makeover will attempt to go into all the details of dressmaking, but it does mean that she will give each Sunday in this column answers to queries received during the week, regarding the best materials to combine with those the questioner has on hand. She will quote the prices of the new materials, and give as close an estimate as possible of the quantities required.

## Write Your Problems to Marion Makeover

Addressing Your Letters to  
**Marion Makeover's Thrift Column,**  
Care S. Kann Sons Co. Then Look for Your Answer Here the Next Sunday

## The Evolution of a New Suit from an Old One

—Many a clever woman has solved this problem for herself this spring by remodeling the jacket of her last year's suit, and then purchasing a pretty plaid semi-made skirt to wear with it.

—The skirt of a suit generally receives harder wear than the jacket, but a good portion of it can probably be used in remodeling the jacket. After you have finished your jacket take it to a tailor and have it pressed out, and you will have a satisfactory piece of work.

—Two good styles to select from in making over your jacket are found in Pictorial Review Patterns Nos. 8342 and 8282.

—Select your semi-made skirt to wear with the jacket from one of our new models. All that you will need to do, to finish these is to sew up the one seam left open for adjustment. They range in price from \$6.98 to \$18.00. You will find them in the Dress Goods Store—Street Floor.

## Did You Knit a Sweater Last Year?

—Was it one of those with the full cuffs, and full pleum at the waist? What are you going to do with it? Would you like to make it over into a sport blouse to complete a pretty sport suit?

—It should not be difficult to do this, making it up in the style shown here. Travel out the full cuffs, and finish off the sleeves above the elbow. Lay the pleum in tiny pleats, stitching them down with wool. Your sweater is probably a slip over style, and does not have a collar, but that is no reason it should not have one in its reconstruction. The collar, cuffs and skirt should be fashioned of a wash material—for instance a splendid quality new imitation linen suiting we are showing would answer admirably. It is 36 inches wide, and in such a good assortment of colors that you can most probably find one to prettily contrast with that of your sweater.

## March Victor Records Out TOMORROW!

—It is a great list this month, and you will surely want some of these new numbers.

—Come in Monday and ask for a catalogue.

Victrola Parlors  
Fourth Floor.

—The skirt shown here is made up after Ladies' Home Journal pattern No. 2302, and the collar after Ladies' Home Journal pattern No. 1994. The cuffs should be made in the slightly full "harem" style, drawn in with an elastic at the bottom. On each side depending from the waist line, arrange a double cascade of drapery of narrow Chantilly lace flouncing, the points of the lace reaching to the hem of the skirt, and make the short full sleeves of narrower lace to match the drapery. The design outlined in metal thread will give a stunning finish to this costume.

—4 yards of 22-inch black Chantilly flouncing, a yard, \$3.50 to \$5.00.

—One yard of 10-inch black Chantilly lace for sleeves, a yard, \$2.25 to \$2.50.

Lace Store—Street Floor.

—1 to 2 1/2 yards of ribbon, 7 1/2 inches wide for girle, a yard, \$1.50.

Kann's Ribbon Store—Street Floor.

## Have You a Black Dress You Want to Make Over?

—An attractive way to do this would be to make the bodice in a rather close-fitting long waist bodice effect, with low square leaving narrow straps of the satin over the shoulder. The skirt should be made in the slightly full "harem" style, drawn in with an elastic at the bottom. On each side depending from the waist line, arrange a double cascade of drapery of narrow Chantilly lace flouncing, the points of the lace reaching to the hem of the skirt, and make the short full sleeves of narrower lace to match the drapery. The design outlined in metal thread will give a stunning finish to this costume.

—4 yards of 22-inch black Chantilly flouncing, a yard, \$3.50 to \$5.00.

—One yard of 10-inch black Chantilly lace for sleeves, a yard, \$2.25 to \$2.50.

Lace Store—Street Floor.

—1 to 2 1/2 yards of ribbon, 7 1/2 inches wide for girle, a yard, \$1.50.

Kann's Ribbon Store—Street Floor.

**\$1.25**

Kann's—Street Floor.

## When An Emergency Breakfast Must Be Prepared If--

### The Maid Fails to Show Up in the Morning

—It IS hard to crawl out of a nice warm bed in the morning before the janitor has full steam on and go out into a cold kitchen to get breakfast, but if you have one of our electric heaters to warm the kitchen up a little bit first, you won't mind it nearly so much.

—Now what is the breakfast to be? Suppose we say the average American breakfast of fruit, boiled eggs, toast and coffee.

—Set your table, start your coffee to boiling merrily in your coffee percolator—on the breakfast table. Then prepare your fruit—grape fruit, oranges, or whatever it may be and rouse the rest of the family. Get out your electric toaster, your electric egg boiler and cut the bread for your toast. By this time the family will probably have assembled, and you can start the eggs boiling and the toast browning, and by the time the fruit course is finished the rest of the breakfast will be ready, piping hot, and very appetizing—and, best of all, cooked right on the table, to order.

—You will be so delighted with your initial venture and its success that you will begin to think that you do not care whether Esmeralda—the maid—ever puts in her appearance again or not.

—These electric appliances will be found in our Housefurnishing Store priced as follows:

—Electric toasters, which will toast two slices of bread. We have these from \$3.69 up.

—You may find one thorn in your bed of roses, however.

—The family may want its usual cooked cereal, and that, perhaps, hadn't entered into your calculations for an emergency meal. But why shouldn't it? If you will only think of it the night before and prepare your oatmeal or rolled oats in a fireless cooker, you will find that the cereal is more delicious than you would have ever imagined from cooking it in the ordinary way. If you don't possess a fireless cooker, you do not know half the joy of housekeeping. Do get one right away and see what a satisfaction it is. Why, with a Duplex or an Ideal—we have them both—you will have enough assurance to tell Esmeralda that you do not care whether she comes back or not.

—Our terms on these Fireless Cookers are \$5.00 down and \$5.00 a month until paid for.

Kann's—Third Floor.

## Our Artificial Flower Display

Heralds the Coming of Easter.

—Artificial garden flowers, field flowers and hot-house flowers for Easter gifts.

—We have dainty little fern dishes for centerpieces. These are filled with feathery ferns and flowers of various kinds—Nasturtiums, clover blossoms, sweet peas, daisies, tiny rosebuds, bachelor's buttons, hyacinths, jonquills and bluebells. All looking as natural as life. These are priced from, \$3.75 to \$10.00.

—Loose or "cut" flowers, almost real enough to feathery ferns and flowers of various kinds—Nasturtiums, clover blossoms, sweet peas, daisies, tiny rosebuds, bachelor's buttons, hyacinths, jonquills and bluebells. All looking as natural as life. These are priced from, \$3.75 to \$10.00.

—There are tangerines, apples of all species, bananas, grapes, oranges, peaches and pears. At 50c and 98c.

Kann's—Fourth Floor—Art Store.

BROWN EAGLE—FULL-BLOODED INDIAN, EDUCATED AT CARLETON SCHOOL, MONTREAL.

## What Woman Has not wished that she could do Bead Work?

—Such as is most popular at the present time and which was one of the earliest industries of the Indians of our America?

Tomorrow and Every Day This Week

Learn From Brown Eagle and His Sister, Full-Blooded Indians,

How to make bags, belts, fobs, covers, etc., with beads.

—These two American Indians have been engaged by us to demonstrate what can be done with beads.

A Special Window Exhibit Will be made of finished articles and from 10 to 12 a. m. and 3 to 5 p. m. one of these Indians will be in the window making various trinkets from beads, using the quaint looms associated with this class of work.

In the Art Store, Fourth Floor

—Special instruction in bead work will be given free.

—Bring the children to see it.

—BEAD SPECIAL for one week only, cut steel beads in all sizes.....**75c**
